

## MATERIAL SAFETY DATA SHEET

## According to Regulation (EC) No 1272 of 2008 and Regulation (EC) No 1907/2006 (REACH), as amended by Regulation (EU) 2017/1510

## **Organic Oregano Oil**

Version 01	Date of compilation: 18.10.2019	Date of publishing: 28.10.2019
------------	---------------------------------	--------------------------------

## 1. Identification of the substance/mixture and the company/undertaking

**1.1. Product Identifiers** 

Product name	:	Organic Oregano Oil
Substance name (INCI)	:	-
Botanic name	:	Origanum Vulgare Ssp.Hirtum
CAS No	:	8007-11-2
EO No	:	-
Biological origin	:	Produced using the method of steam distillation.

## 1.2. Relevant identified uses of the substance or mixture and uses advised against

Use of substance/mixture :	Used in perfumery and cosmetics by itself or as a formulation constituent, a part of composition.		
Recommended : restrictions on use	No data available		
<b>1.3. Details of the supplier of the sa</b>	ıfety data sheet		
<u>Manufacturer</u>	: ALTEYA ORGANICS LLC		
Mailing address/Postal code	: 6167, village of Yagoda, 1, Rozovarna St.		
Country identifier/			
Postal code/city or town	: Bulgaria		
Telephone/Mobile/Fax	: +359 700 15 502		
E-mail of the competent person responsible for the Safety Data			

E-mail of the competent person r	esponsible for the Safety Data
Sheet	: <u>salesbg@alteya.com</u>
National contact person	: Kaloyan Stoev

## 1.4. Emergency telephone number

Clinic of Toxicology at MPHATEM N.I. Pirogov Emergency telephone number: 02 9154409; (regular working time, Saturdays and Sundays excluded) or 02 9154 346 (24h service, all week) e-mail: <u>poison\_centre@mail.orbitel.bg</u> http://www.pirogov.net

## 2. Hazards Identification

## **2.1.** Classification of the substance or mixture

## 2.1.1. Classification according to Regulation (EC) No 1272/2008 (CLP)

Classification according to GHS					
Chapter	Subsection	Class of hazard	Class of hazard and category of hazard	Hazard statements	
3.1.	Oral	Acute toxicity	(Acute Tox. 4)	H302	
3.1.	Derm.	Acute toxicity	(Acute Tox. 3)	H311	
3.2	Skin	Skin irritation	Corrosion/irritation 2	H315	
3.3	Eye	Eye irritation	(Corrosion)Damage/ Irritation. 2A	H319	

## 2.1.2. Additional information:

For full text of hazard statements and EC specific hazard statements: see SECTION 16.

## 2.2. Label Elements

Designation according Regulation (EC) No 1272/2008 [CLP] <u>Hazard pictograms</u>

GHS06		
Signal word	:	Hazardous
<u>Hazard statements</u>	:	<ul> <li>H302 Harmful if swallowed</li> <li>H311 Toxic if skin contact</li> <li>H315 Causes skin irritation</li> <li>H319 May cause allergic skin reaction</li> </ul>
		EUH208 Contains: Geraniol, Linalool, Limonene, Coumarin, Eugenol. May cause allergic reaction.

Safety recommendations				
Safety recommendations				
- General	:		P102 K	Leep out of reach of children
Safety recommendations - Prevention	:		P270	Do not eat, drink or smoke while handling the product.
	:		P273	Avoid release to environment
	:		P280	Use protective gloves / protective clothing / protective goggles / protective facial mask
Safety recommendation	ations			
- As a reaction		:	P301 + P312	IF SWALLOWED: in case of sickness call TOXICOLOGY CENTRE /a physician/
		:	P305+ P351+ P338	If eye contact: Rinse thoroughly with water for several minutes. Remove contact lenses if there are such and if possible. Continue rinsing.
		:	P301 + P310	IF SWALLOWED: immediately call TOXICOLOGY CENTRE /a physician/
		:	P 330	Rinse the mouth.
		:	P302 + P352	IF SKIN CONTACT: wash with plenty of soap and water.
		:	P405	Keep locked up.
Safety recommendation	ations			
- In discharge		:	P501	Dispose of contents / container in an approved place and in compliance with the local and national regulations.

## 2.3. Other hazards

No other information available. The substance meets vPvB criteria according to Regulation (EC) No 1907/2006, Annex XIII

## 3. Composition/information on ingredients

## 3.1. Substances/ Mixture

INGRIDIENT	IDENTIFIERS	%	CLASSIFICATION
ORIGANUM OIL	EINECS NO: -	100,0	Flam. Liq.4 H227

# 4. First Aid Measures4.1. Description of first aid measures

- General notes	:	Immediately remove the clothing contaminated with the product. The symptoms of poisoning may appear several hours later; so health surveillance for at least 48 hours is recommended. Seek medical advice without delay. Show the physician this Material Safety Data Sheet for safe examination.
- Following inhalation	:	Immediately remove the exposed individual to fresh air. In case the person is not breathing administer artificial respiration. Consult a physician.
- Following skin contact	:	Gently and thoroughly wash the contaminated skin with flowing water and non-abrasive soap. Be especially careful while cleaning the folds, fissures, groins. Seek medical advice if irritation persists. Wash the contaminated clothing before reuse.
- Following eye contact	:	Immediately start rinsing the eyes with plenty of water for at least 15 min. Remove the contact lenses. Seek medical advice.

Alteya's Campus, Village of Yagoda 6167	, St.Zagora	Region, Bulgaria   +359 700 15 502   info@alteya.com   AlteyaOrganics.com
- Following ingestion	:	Do NOT induce vomiting. Never give anything by mouth
		to an unconscious person. Rinse the mouth with water.
		Consult a physician.

- Self-protection of first		
aid provider	:	No data available.

## 4.2. Most important symptoms and effects, both acute and delayed

 Symptoms
 :
 Shortness of breath, cough. Causes eye irritation. Causes skin irritation. Gastric or intestinal disorders when ingested.

## 4.3. Indication of any immediate medical attention and special treatment needed

Treatment	:	In case of ingestion or vomiting possible penetration in
		lungs. Later surveillance for pneumonia or pulmonary edema. Show the physician this Material Safety Data
		edema. Show the physician this Material Safety Data
		Sheet.

# 5. Fire-fighting Measures 5.1. Extinguishing media

Suitable extinguishing media	:	In case of small (initial) fires use such extinguishing media as "alcohol" foam, dry chemical powder or carbon dioxide. In case of large fires plenty of water in the form of aerosol or spray should be used staying as far as possible from the fire. The powerful water jet may not have the required effect. Cool all affected containers using flowing water.

Unsuitable	:	Water.
extinguishing media		

## 5.2. Special hazards arising from the substance or mixture

Hazardous combustion		
products	:	Flammable liquid. In the process of heating or in case of
		fire toxic gases may be generated.

 Alteya's Campus, Village of Yagoda 6167, St.Zagora Region, Bulgaria | +359 700 15 502 | info@alteya.com | AlteyaOrganics.com

 Specific hazards
 :

 Lateya fire-fighting

## **5.3. Advice for firefighters:**

Special protective	:	Avoid inhaling smoke in case of fire and/or explosion.
equipment for firefighters		Wear appropriate protective breathing equipment.
		Use complete protective equipment.

Additional data	:	Use water jet to cool the containers that are not opened
		yet. Eliminate all ignition sources if it is safe to do it.

## 6. Accidental Release Measures

## 6.1. Personal precautions, protective equipment and emergency procedures

## 6.1.1. For personnel not responsible for emergencies

Personal precautionary measures, protective equipment and emergency procedures :	Wear personal protective clothing as described in SECTION 8 of this Material Safety Data Sheet. Handle the product using protective gloves, resistant to the specified chemicals. Avoid skin contact and inhalation of vapors or smoke. After spillage maintain adequate ventilation in operating
	area.

#### 6.1.2. For the persons responsible for emergencies

Wear protective facial mask. Avoid inhalation vapors, aerosols or gas. Provide adequate ventilation. Remove all ignition sources. Avoid eye and skin contact. Evacuate personnel to safe areas. Beware of vapors that accumulate to explosive concentrations. The vapors may accumulate in lower areas. For personal protection see SECTION 8.

#### **6.2.** Environmental precautions

Environmental	:	Avoid subsequent leakage or spillage if safe. Prevent
precautions		discharge in sewer systems.

## 6.3. Methods and materials for containment and cleaning up

6.3.1.	For containment	:	Limit using non-combustible absorbing materials as sand, soil, vermiculite, diatomaceous earth in drums for waste disposal.
6.3.2.	For cleanup	:	Collect using a vacuum cleaner with electrical protection, or a wet brush and place in container to dispose following the local regulations. (See SECTION 13). For disposal keep in appropriate closed containers.

**6.3.3.** More information : Wear personal protective clothing as described in SECTION 8 of this Material Safety Data Sheet. A self contained breathing apparatus should be used to avoid inhaling the product. The recommended protective clothing may not be sufficient; consult a specialist BEFORE handling this product.

## **6.4. Reference to other sections**

For personal protection see SECTION 8. For disposal see SECTION 13.

## 7. Handling and Storage

## 7.1. Precautions for safe handling

Precautions	:	Avoid contact with skin and eyes. Avoid inhaling vapor or mist. Store away from ignition sources. Do not smoke. Take precaution to avoid accumulation of static electricity. Keep away from food and drinks. Handle observing good occupational hygiene and safety rules.
Fire-fighting measures	:	Store away from ignition sources. Do not eat, drink or smoke while handling the product.
Measures to avoid		

Alteya's Campus, Village of Yagoda 6167, St.Zag transformation into	gora R	egion, Bulgaria   +359 700 15 502   info@alteya.com   AlteyaOrganics.com
aerosols and powder :		Provide adequate ventilation in the operating area.
Environmental precautions:		Prevent penetration in sewer systems or water. In case of penetration in water or sewer systems inform the competent authorities.
Advice on general occupational hygiene :	1	Wash your hands before breaks and at the end of the working day. Avoid eye and skin contact.

## 7.2. Conditions for safe storage, including any incompatibilities

Technical measures and		
storage conditions	:	Store the product in tightly closed original container, in a dry, well ventilated place away from possible ignition sources and protected from light.
storage conditions	:	in a dry, well ventilated place away from possible

Packing materials	:	Use packing materials preserving the integrity of the product.
Requirements to storage areas or containers:	:	Store in cool, dry and ventilated premises in closed
		containers. The opened containers should be carefully closed and positioned up right to prevent leakage.
Storage class	:	No data available
Recommendations for fire a	nd	
explosion protection	:	Not known.
Recommendations for	:	Store away from combustible materials.
primary storage		Store away from food.
		Store away from oxidizers.

It is recommended to follow the requirements concerning packing and storage according ISO/TS 210:2014.

Recommendations	:	Before using read the label.
Solutions specific to the industry sector	:	No data available.
Specific use(s)	:	Used in perfumery and cosmetics by itself or as a formulation constituent, a part of composition.

## 8. Exposure controls/Personal protection equipment

#### 8.1. Control parameters

Occupational exposure limits are determined on the basis of data base of international limit values GESTIS

## Other occupational exposure limits

## Information on monitoring procedures Relevant DNEL-/DMEL-/PNEC and other threshold levels

#### DERIVED NO EFFECT LEVEL (DNEL)OR DERIVED MINIMUM EFFECT LEVEL (DMEL): LINALOOL(CAS:78-70-6)

FINAL USE:	Workers.
EXPOSURE METHOD:	Dermal contact.
POTENTIAL HEALTH EFFECTS:	Short term systemic effects.
DNEL:	5mg/kg body weight/day
EXPOSURE METHOD:	DERMAL CONTACT.
POTENTIAL HEALTH EFFECTS:	SHORT TERM LOCAL EFFECTS.
DNEL:	15MG OF SUBSTANCE/CM2
Exposure method:	Dermal contact.
Potential health effects:	Long term systemic effects.
DNEL:	2.5mg/kgbody weight/day
Exposure method:	Dermal contact.
Potential health effects:	Long term local effects.
DNEL:	15mg of substance/cm <sup>2</sup>
Exposure method:	Inhalation.

MARINE SEDIMENT. 0.222MG/KG

WASTE WATER TREATMENTPLANT. 10MG/L

## 8.2. Exposition controls

#### 8.2.1. Appropriate engineering control

:

Measures related to the substance/mixture to prevent exposure during identified uses

The description of the appropriate exposition control measures refers to the specified in subsection 1.2 identified uses of the substance or the mixture. This information is sufficient to make it possible for the employer, when appropriate, to assess the risk caused by the presence of the substance or the mixture for the health and safety of employees according to articles 4—6 of Directive 98/24/EC and articles 3—5 of Directive 2004/37/EC.

This information supplements the information presented in SECTION 7.

Provide adequate ventilation. The good practices of personal hygiene are always recommended especially when handling chemicals / oils.

Provide adequate aeration. Wash hands before breaks and at the end of the working day. Remove and wash the contaminated clothing before reusing it.

Avoid contact with eyes and skin. Do not inhale gases

Alteya's Campus, Village of Yagoda 6167, St.Zagora Region, Bulgaria | +359 700 15 502 | info@alteya.com | AlteyaOrganics.com / vapors / aerosols. Do not eat, drink or smoke while working.

## 8.2.2. Personal protective equipment:

1:	Wear approved protective goggles. (EN 166)
	Wear chemical resistant gloves (PVC), to avoid skin contact. DIN/EN 374. The gloves material should be impermeable and resistant to the product / substance / preparation. The manufacturer of the protective gloves should provide information on the exact time of break and it should be observed.
	To avoid any skin contact wear complete protective clothing.
:	Respiratory mask is recommended. NIOSH or European standard EN 149 approved respirator.
:	There aren't such.
:	Avoid discharge in drainage waters. To be eliminated by authorized companies only.
:	Provide adequate ventilation.
:	Training of the staff is organized according to a company schedule.
	:

 Alteya's Campus, Village of Yagoda 6167, St.Zagora Region, Bulgaria | +359 700 15 502 | info@alteya.com | AlteyaOrganics.com

 exposition
 : Training of staff

Technical measures to avoid		
exposition	:	Training of staff

## **Environmental exposition controls**

Basic guidelines :	Do not wash-off in surface waters.
--------------------	------------------------------------

# 9. Physical and Chemical Properties9.1. Information on basic physical and chemical properties

Appearance	:	Transparent easy flowing liquid
Color	:	light yellow to red
Odor	:	Specific spicy woody scent.
Odor threshold	:	No data provided by our supplier on this natter.
Carvacrol content in %, not less than	:	30,0
pH	:	No data available
Acid value, mg KOH/g	:	< 1.0
Freezing point in °C	:	No data available
Melting point in °C	:	No data available
Boiling point	:	239 °C –lit.
Boiling point / boiling range	:	No data available

	0	0
Ignition point in °C	:	No data available
Evaporation rate	:	No data available
Flammability (solid substance, g	gas):	No data available
Ignition point	:	65,0
Upper flammability/ explosion limit	:	No data available
Lower flammability/ explosion limit	:	No data available
Vapor pressure at 20°C	:	No data available
Solubility(ies)	:	Soluble in alcohol and oils.
Insoluble in	:	Water.
Partition coefficient n-octanol/water Log/Pow	:	No data available
Autoignition temperature	:	No data available
Decomposition temperature	:	No data available
Explosivity	:	No data available
Oxidizing properties	:	No data available
Additional information		
Refractive index at n <sup>20</sup> /d	:	1,460 - 1.505
Relative density at d <sup>20</sup>	:	0,900 - 0,940
Optical rotation in <sup>o</sup>	:	-5 up to +5

No other information available.

## **10. Stability and Reactivity**

10.1.	Reactivity		
Advic	e	:	No data available.
10.2.	Chemical stability		
Note		:	Stable at the recommended conditions of handling and storage.
10.3.	Possible hazardou	s reactio	ns
Hazaro	dous reactions	:	The used empty containers may contain gases from the product that form explosive mixtures with the air. May form explosive mixtures in the air if heated above the explosion point and / or in case of spraying. Toxic fumes may be generated if heated above the decomposition point. Reacts with oxidizers.
10.4.	Conditions to avoi	d	
Condi	tions to avoid	:	Heat, flames and sparks. Keep away ignition sources – do not smoke. Store away from oxidizers.
Therm	al decomposition	:	No data available.
10.5.	Incompatible mate	erials	
Mater	ials to avoid	:	Strong oxidizers. Alkali metals, ammonia, peroxides, strong inorganic acids.

## **10.6.** Hazardous decomposition products

Hazardous decomposition : products

In case of fire hazardous decomposition products may be generated such as carbon oxide and dioxide

## **11. Toxicological Information**

#### **11.1.** Information on toxicological effects

Acute toxicity

Note	: No data available	

Note	:	No data available
12.2. Persistence	and degradab	ility
Product:		
		Abiotic degradation
Note	:	No data available
	Physical a	and photo-chemical elimination
Note	:	No data available
	В	iochemical degradation
Biodegradation	:	The product is biodegradable above 80%
Exposure time	:	2 days
Note	:	Biodegradable
12.3. Bioaccumula	ation	
Product:		

Partition coefficient n-octanol/water (log Kow)			
Note	: No data available		

	Bioco	ncentration factor (BCF)
Notes	:	Does not accumulate in biological environment

12.4.	Mobility i	n soil
-------	------------	--------

Product:			
Known or predicted distribution in environmental components			
Note	: No data available		
	Surface tension		
Note	: No data available		
	Adsorption/desorption		

#### 12.5. Results of PBT and vPvB assessment

This product doesn't contain substances considered persistent, bioaccumulative or toxic PBT.

<b>Product:</b>				
<b>Results from PBT and vPvB assessment</b>				
Notes	:	No data available		
12.6.	Other adverse effects			
<b>Product:</b>				
	Bioch	emical oxygen demand (BOD)		
Value	:	No data available		
	Cher	mical oxygen demand (COD)		
Value	:	No data available		
	Additional e	cological information/Mobility in soil		
Notes	:	No data available		
12.7.	Additional information			
Notes	:	Prevent release of products in streams, sewer systems		

## **13. Disposal Considerations**

# 13.1. Waste treatment methods13.1.1. Disposal of product/packingCodes/designation of waste according to LoW: -

Product : This material may be burned in chemical incinerator. Submit the non-recyclable solutions left to an authorized company for disposal. Contact an authorized professional service for the disposal of this material.

or other water routes.

Contaminated packaging material	:	Discharge it as unused product.
European Catalogue waste number	:	No waste code can be given to this product according to the European Waste Catalogue since it is related to its potential use. Waste code is given after consulting the regional waste Service
<b>13.1.2.</b> Information on waste treatment	:	Contact an authorized professional service for the disposal of this material
<b>13.1.3.</b> Information on discharge in sewer systems	:	Do not discharge in streams, channels or other water routes.
<b>13.1.4.</b> Other recommendation on waste disposal	18 :	No data available.

## 14. UN number

2810

## 14.1. UN proper shipping name

2810 TOXIC LIQUID, ORGANIC. N.O.S.(Origanum oil)

## 14.2. Transport hazard class(es)

Class 6.1

## 14.3. Packing group

- III
- 14.4. Environmental hazards

Yes, Class 6.1

## 14.5. Special precautions for user

Warning: Toxic substances.

## 14.6. Transport in bulk according to Annex II to MARPOL and IBC Code"

Road transport	
ADR RID	2810; Class 6.1, (T1) III
Waterway transport	
ADN	2810; Class 6.1, (T1) III
Maritime transport	
IMDG	TOXIC LIQUID, ORGANIC, N.O.S.(Origanum oil)
<u>Air transport</u> IATA/CAO	Toxic liquid, organic, N.O.S. (Origanum oil)
Additional transport inf	formation:
DOT	

Limited quantity for packages less than 30 kg and internal packages less than 5 l

ADR/RID/AND

Limited quantity for packages less than 30 kg and internal packages less than 51

IMDG

Limited quantity for packages less than 30 kg and internal packages less than 51

## IATA

Limited quantity for packages less than 30 kg gross and internal packages less than 0,5 L each / 1L each

## 15. Regulatory information

# **15.1.** Legislation specific for the substance or mixture / safety, health and environmental regulations

Other regulations / Laws	: This material safety data sheet is consistent with the Law on Protection from Harmful Effects of Substances and Preparations and the Ordinance on the Classification, Packaging and Labelling			
EU legislative acts	: accordingly, EU regulations.			
Permits or restrictions for use	: No data available.			
Permits	: No data available.			
Restrictions for use	: No data available.			
Other EU legislative acts	: According to the effective Regulations			

# Information according to Directive 1999/13/EC on the limitation of emissions of volatile organic compounds (VOC Guide)

in working environment : No data available.

Other legal acts, restrictions and prohibitive standards : No data available

## 15.2. Chemical Safety Assessment

No data available. The supplier had not prepared a chemical safety assessment for this substance/mixture.

## **16.** Other information

Shelf life

2 years from the date of production.

## Classification and procedure used to obtain the classification of mixtures according to Regulation (EC) No 1272/2008 [CLP] Abbreviations and acronyms:

Abbr.	Description of used abbreviations				
ADN	Accord européen relatif au transport international des marchandises dangereuses par voies de				
	navigation intérieures (European Agreement on the International Carriage of Dangerous				
	Goods by Inland Waterways)				
ADR	Accord européen relatif au transport international des marchandises dangereuses par route				
	(European Agreement on the International Carriage of Dangerous Goods by Road)				
CAS	Chemical Abstracts Service (prepares the most comprehensive list of chemicals)				
CLP	Regulation (EC) No 1272/2008 on classification, labelling and packaging				
	of substances and mixtures (Classification, Labelling and Packaging)				
CMR	Carcinogenic, mutagenic and toxic for reproduction (substance)				
DMEL	Derived Minimal Effect Level				
DNEL	Derived No-Effect Level				
EINECS	European Inventory of Existing Commercial Chemical Substances				
GHS	"Globally Harmonized System of Classification and Labelling of Chemicals" ", developed				
	by the United Nations				
IMDG	International Maritime Dangerous Goods Code				
IOELV	Indicative occupational exposure limit value				
MARPOL	International Convention on Prevention of Pollution from Ships (abbr. to				
	"Marine Pollutant)				
PBT	Persistent, bioaccumulative and toxic				
PNEC	Predicted No-Effect Concentration				
ppm	parts per million				
REACH	Registration, Evaluation, Authorisation and Restriction of Chemicals				
RID	Règlement concernant le transport International ferroviaire des marchandises Dangereuses				
	(Regulation on Carriage of Dangerous Goods by Rail)				
vPvB	very Persistent and very Bioaccumulative				

AcuteTox.4:Acutetoxicity–Category4 AcuteTox.3:Acutetoxicity–Category3 SkinIrrit.2:Skincorrosion/irritation–Category2 EyeIrrit.2A:Seriouseyedamage/eyeirritation–Category2A

## Main references and sources of data in the literature

- Regulation (EC) No 1907/2006 (REACH), as amended by 2015/830/EU

- Regulation (EC) No 1272/2008 (CLP, EC GHS)

:

	List of relevant phrases (code and full text as defined in Section 2 and 3)			
Code	Text			
H302	Harmful if swallowed			
H311	Toxic if skin contact			
H315	Causes skin irritation			
H319	Causes serious eye irritation			
EUH208	Contains Linalool, Geraniol, Eugenol, Coumarin, Limonene. May cause allergic reaction.			
List of instructions for safe treatment, used in the safety documer				
P102	Keep away from children			
P270	Do not eat, drink or smoke while using the product.			
P273	Avoid releasing in environment			
P280	Use protective gloves/protective clothing/protective goggles/protective facial mask.			
P301 + P312 IF SWALLOWED: In case of sickness call the TOXICOLOGY CENTRE				
	physician/.			
P305 + P351 +	IF CONTACT WITH EYES: Rinse thoroughly with water for several minutes.			
P338	Remove the contact lenses if there are such and if possible. Continue rinsing.			
P301 + P310	IF SWALLOWED: Immediately call the TOXICOLOGY CENTRE /or a physician/			
P330	Rinse the mouth			
P302 + P352	IF SKIN CONTACT: Wash with plenty of soap and water			
P405	Keep locked			
P501	Dispose of the content / container in an approved for disposal place in compliance with the local and national regulations.			

**Other information** 

In accordance with general product specification:The information in this material safety data sheet is meant to represent typical data/analysis for this product and was obtained from current and reliable sources.To the best of our knowledge, data is accurate and based on our knowledge and information, at the time of publication.

Alteya's Campus, Village of Yagoda 6167, St.Zagora Region, Bulgaria | +359 700 15 502 | info@alteya.com | AlteyaOrganics.com The information presented is intended only as a guidance for proper

and safe use, handling, storage, transportation and disposal, and should not be considered a guarantee /expressed or implied/ or a quality specification with respect to the correctness or accuracy. It is responsibility of the user to determine any safe conditions for use of this product, and to assume responsibility for any loss, injury, damage or expenses resulting from the improper use of this product.

The information relates to the specific product only and is not valid when it used in combination with other materials or in any process, unless specified in the text.

The information provided does not constitute a delivery contract; regarding any specification or a given application, the buyer must determine for himself the requirements and recommendations for use of the product.

Disclaimer :

The data in this Safety Data Sheet correspond to the fair presentation of our experience at the time of printing. The information should give you basic guidelines for safe handling of this product, specified in the Safety Data Sheet, regarding its storage, processing, transport and disposal. Data cannot be assigned to other products.

If the product is mixed or processed with other materials, or if it is subject to processing, the data in this Safety Data Sheet cannot be assigned to the new material unless expressly stated otherwise.
